BIOGRAPHY

Majestic is a Dutch DJ and selector whose roots run deep into the underground. Based in **Amersfoort, Netherlands**, he began producing in 1994 and hit the decks in 1999 — spending over two decades carving out a reputation as one of the Netherlands' most dedicated voices in Drum & Bass and Raggajungle.

His journey led him through Hardcoregabber, UK Garage, Hip-Hop, Bubbelin' and Hardstyle before returning full circle to his first love — the raw, bass-heavy energy of Jungle and DnB, now blended with Tekno and Juke. The breadth of that experience shows. His sets are dense, fast and unpredictable: built on heavy layering, double drops and a relentless pace that refuses to let the dancefloor breathe until it absolutely has to.

From vinyl and CDs through digital timecode to his current **Denon Prime Go** and **Pioneer CDJ** setup, Majestic's technical evolution has always been in service of one thing — **live performance energy** that can't be replicated on a playlist.

In his sets, he strives to lead the audience on the dance floor with an eclectic mix of genres such as **Jungle and Drum & Bass** with a fusion of Bass Music, Juke, Chicago Footwork, Rave, Dutch Tekno and Gabber — weaving a thread that connects the underground's past to its relentless present.

Alongside fellow selector **Bong-Selecta**, Majestic has performed in a unique Selecta/Operator format — Bong-Selecta calling and cueing tracks while Majestic mixes them live on the decks. This rare partnership has been a staple of the Bass In Ya Face nights across the Netherlands and Belgium.
